Aqua 85 is an outstanding mat with a long proven track record. Made of ECONYL® (100% phthalate-free recycled polyamide), this scraper walkoff mat has a unique Twin Fibre pile construction. Aqua 85 is the best performing mat when it comes to dirt absorption, thanks to the Twin Fibre pile construction. A product innovation in which hard scraping yarns and thin moisture absorbing yarns are tufted next to each other for ultimate dirt absorption. A luxury mat with a warm appearance for high traffic use (class 33) at top locations that want to be and remain representative.
