ADDITIONAL INFO

Thanks to its revolutionary and innovative design, Karì enriches and extends our range of electric hand dryers further. Ideal in high traffic areas, this new smart jet dryer offers an ultra fast drying experience (5-10 seconds), facilitated by the horizontal frontal opening. The product is available in the “Easy” version, with AC motor, and in the “Pro” version, with brushless motor. AC or BRUSHLESS - The “Easy” version is supplied with an AC current motor, for a better quality-price ratio. The “Pro” version includes a brushless motor, which guarantees excellent performance and less wear over time. 360° CIRCULAR DRYING ZONE - - The dryer is equipped with a large circular drying compartment. The air flow is delivered at 360°, allowing an ultra fast drying in a few seconds. INTEGRATED ADJUSTMENT PANEL - Specific selectors allow you to activate or deactivate the heater (ON / OFF); adjust the motor power by choosing between three air speeds (Low, Medium, High). ABSORBENT CERAMICS - The drying compartment is equipped with a ceramic plate that can absorb up to 70 g of water and withstand about 280 complete drying cycles per day. HEPA 11 FILTER (STANDARD) - The appliance is equipped as standard with an HEPA 11 filter, which guarantees protection against 97.66% of bacteria present in the air used during drying.
