compared to larger models in the same segment. A great choice for medium-low washroom environments, Mini Zefiro perfectly dries the hands in just 20 seconds. **ENERGY-SAVING** - Designed with super speedy technology in mind, Mini Zefiro is operated by a powerful 400 AC motor, incorporating a 500 W heating element. This massively lowers the energy consumption. **INSTANT WARM AIR** - To offer a greater comfort in use, the dryer incorporates a heater that instantly warms the air during hand drying operations. **ULTRA-COMPACT DESIGN** - Its ultra-compact shape, only 10 cm depth, makes this product the smallest smart dryer available on the market. Nevertheless, the wide cone nozzle design spreads airflow across a large area, ensuring both hands are dried at the same time. **AUTOMATIC ACTIVATION** - The dryer is equipped with an effective infrared sensor which detects the hands placed below the dryer, thereby activating a 200 km/h air stream. **EPA FILTER (AS OPTION)** - Mini Zefiro may incorporate a replaceable EPA E11 filter, which purifies the air by trapping up to 97,66% of dust microparticles, pollen and bacteria suspended in the incoming air flow.
