**HS CODE:** 85163300  
**PRODUCT ORIGIN:** Extra UE

**PRODUCT PICTURE****PRODUCT SPECIFICATIONS**

**Material:** ABS  
**Colors:** White

**Dimensions:** 177 x 296 x 566 mm  
**Weight:** 6.5 kg  
**Capacity:** 1,450W

**ELECTRICAL SPECIFICATIONS**

**Engine type:** AC brush motor  
**Nominal power:** 1450  
**Engine power:** 1.1  
**Resistance power:** 350

**Voltage:** 220-240 V  
**Frequency:** 50-60 Hz  
**Electrical insulation:** Class II  
**Protection class:** IP31

**FUNCTIONALITY**

**Activation:** Automatic with infrared sensors  
**EPA Filter:** Double EPA E11 filter as standard  
**Warranty:** 2 years

**Air speed:** 410  
**Air volume:** 1873

**ADDITIONAL INFO**

X-Dry Compact is a smart dryer designed for medium-high traffic areas. Extremely compact in size but ergonomic in design, it offers outstanding performance with a drying time of only 12-15

## PRODUCT SHEET

seconds. To conserve energy and optimize hygiene, it also incorporates an intelligent switchable heating element for hot/cold airflow as well as a UV lamp that sanitizes the drain tank. **ULTRA-COMPACT DESIGN** - Thanks to its compact size, X-Dry Compact can be easily fitted in any washroom. It's a great choice for small toilets having very tight spaces or where multiple units are required. **ADJUSTABLE HEAT CONTROL** - To offer higher efficiency and greater comfort in use, the heater can be activated or deactivated according to preferences. The ON/OFF button is located at the bottom of the unit. **UV STERILIZATION** - The dryer is equipped with a special ultraviolet lamp for improved bacterial control. The device is placed close to the drain tank, allowing to collect purified water. **DRAIN TANK** - The unit incorporates a built-in drain tank with overflow pump that catches water droplets coming off users' hands. Being removable, the tank can be easily empty and clean to both avoid overflows and bad smells. **DOUBLE EPA FILTER (AS STANDARD)** - X-Dry Compact comes as standard with two EPA E11 filter, which purify the air by trapping up to 97,66% of dust micro-particles, pollen and bacteria suspended in the incoming air flow.
