but ergonomic in design, it offers outstanding performance with a drying time of only 12–15 seconds. To conserve energy and optimize hygiene, it also incorporates an intelligent switchable heating element for hot/cold airflow as well as a UV lamp that sanitizes the drain tank. ULTRA-COMPACT DESIGN - Thanks to its compact size, X-Dry Compact can be easily fitted in any washroom. It’s a great choice for small toilets having very tight spaces or where multiple units are required. ADJUSTABLE HEAT CONTROL - To offer higher efficiency and greater comfort in use, the heater can be activated or deactivated according to preferences. The ON/OFF button is located at the bottom of the unit. UV STERILIZATION - The dryer is equipped with a special ultraviolet lamp for improved bacterial control. The device is placed close to the drain tank, allowing to collect purified water. DRAIN TANK - The unit incorporates a built-in drain tank with overflow pump that catches water droplets coming off users’ hands. Being removable, the tank can be easily empty and clean to both avoid overflows and bad smells. DOUBLE EPA FILTER (AS STANDARD) - X-Dry Compact comes as standard with two EPA E11 filter, which purify the air by trapping up to 97,66% of dust micro-particles, pollen and bacteria suspended in the incoming air flow.
