ME-TIS

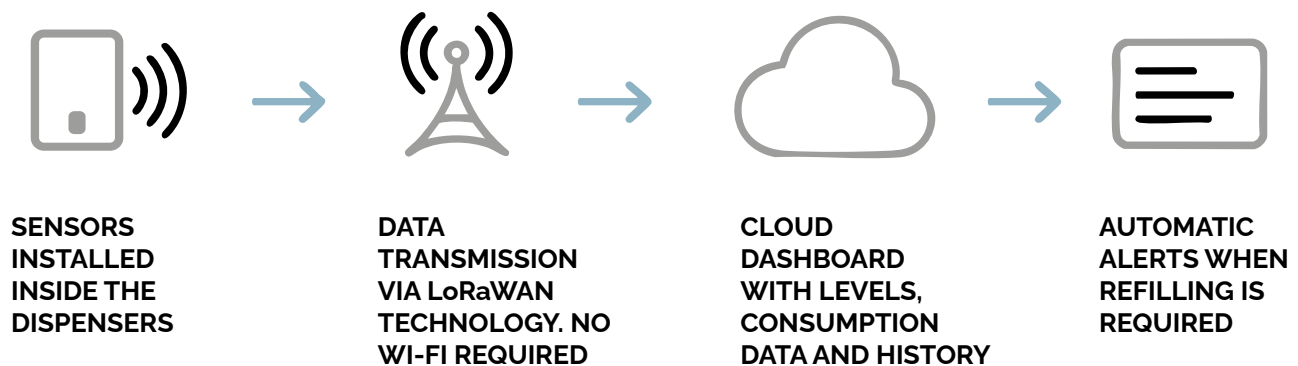

SMART SYSTEM FOR DISPENSER MONITORING

WHAT IS ME-TIS?

- **INTELLIGENT SYSTEM FOR MONITORING DISPENSER USAGE**

ME-TIS is a system composed of **sensors, antenna** and **cloud platform** that monitors in real time the **level of consumables in dispensers**. By leveraging **IoT (Internet of Things)** technology, it enables more efficient, sustainable and predictive management of consumables, based on **real-time and continuously updated data**. It helps **reduce** waste, **improve** staff efficiency and **prevent** product shortages in shared areas.

HOW DOES IT WORK?

STRENGTHENS ITS
COMMITMENT TO INNOVATION,
LOOKING TOWARD
THE FUTURE.

TECHNOLOGY SERVING CLEANLINESS

OPERATIONAL BENEFITS

**REDUCE
WASTE**

**IMPROVE
STAFF
EFFICIENCY**

**ANTICIPATE
AND RESOLVE
ISSUES**

- Reduction of waste and unnecessary interventions
- Optimization of staff routes and working time
- Centralized monitoring, even across multiple buildings
- Improved inventory management
- Fewer service disruptions
- Greater user satisfaction

APPLICATIONS

Ideal for:

- High-traffic public restrooms
- Companies, offices and production facilities
- Shopping centers and retail
- Healthcare and educational facilities
- Facilities aiming for high service standards

KEEP IT CLEAN, KEEP ON CARING.

Dear reader,

We are delighted to accompany you once again in discovering Medial's new product developments.

The division into WASTE MANAGEMENT, HYGIENE and FURNISHING ACCESSORIES, introduced in the previous catalogue, continues to be our way of making consultation easier.

The *golden ratio* runs through this catalogue as a graphic thread that represents us. We chose it because it expresses an idea of *harmony and balance* that inspires our work: a quiet pursuit of **equilibrium between functionality, quality and aesthetics** that we aim to achieve in every solution. A perfect proportion that becomes a symbol of the care with which we design and create our products.

2026 brings **new recycled materials, renewed dispenser lines, advanced IoT systems and furnishing elements designed to enhance the quality of professional spaces.**

A path that grows together with our commitment to **sustainability, innovation and in-house production**: more and more items are created directly by us, where ideas and expertise turn into real value.

We wish you an inspiring exploration,

Medial

WASTE MANAGEMENT

CONTITOP

NEW COLOUR, MORE SUSTAINABILITY

The **Contitop range expands** with a **black version** designed for those who choose **sustainability** every day; made from **100% recycled plastic**, it comes from the recovery and transformation of previously used materials, **giving plastic a new life** and encouraging a more responsible use of resources. The **pedal opening** ensures a more hygienic and immediate use, avoiding manual contact. In 70 and 90 L sizes, the **mobile version with wheels** adds practicality and freedom of movement.

BOB COLOR

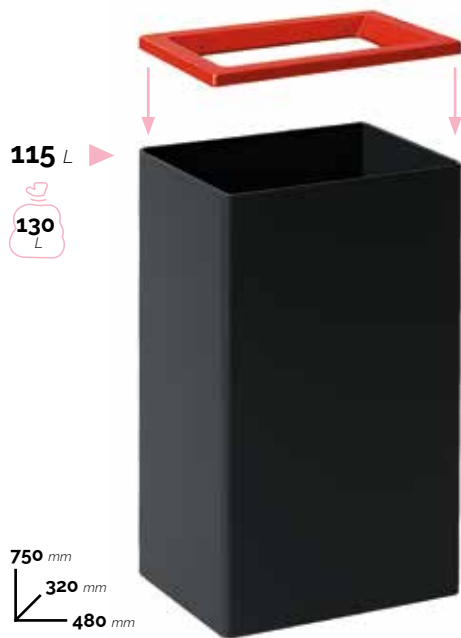

THE RIGHT SOLUTION FOR EVERY NEED

The **BOB COLOR** range is now complete with the new **115 L** and **20 L** versions, offering a concrete solution for **every collection need** in indoor spaces: from **high-traffic environments** to more **compact areas**. A natural evolution of an evergreen line that never goes out of style, thanks to its minimalist and elegant design. **Versatile and modular**, BOB COLOR allows you to create tidy, easily identifiable recycling islands, enhanced by the distinctive coloured lids. **A complete range, the same essential style: a functional solution, always contemporary.**

JUBLO

SOFT GEOMETRY, ELEGANT CONTRASTS

JUBLO redefines the waste bin as a design piece with a **bold, contemporary style**: an essential volume softened by **rounded edges**, where matte black meets a wood-effect finish in a refined **balance of materials**. The result is an elegant “**mix and match**” look, ideal for reception areas and representative spaces. **3M™ DI-NOC™** inserts add character and a natural touch, with a choice that also reflects **sustainability: a detail that makes all the difference and that tells the story of the attention to detail in the search for new materials.**

Colors available:

3M™ DI-NOC™ architectural adhesive films

3M™ DI-NOC™ Architectural Finishes are high-performance self-adhesive decorative films designed for surface renovation, allowing existing furniture and substrates to be transformed without invasive interventions. They are lightweight, quick to apply, and characterized by high durability and resistance to wear.

- Body in matte black painted galvanized steel
- 3M DI-NOC™ wood-effect adhesive inserts (two shades)
- 50 L capacity
- Metal bag-holding ring
- Ideal for representative environments such as hotel lobbies, executive offices and reception areas

HUG

A DESIGN THAT **WELCOMES**,
IN **HARMONIOUS** CONTRAST

HUG is a designer waste bin that brings the language of form into everyday spaces: an **enveloping cylinder**, where two half-cylinders “embrace” the inner container, creating a **harmonious and distinctive** visual effect. The contrast between black metal and wood-effect surfaces creates a **sophisticated mix & match**, designed for modern, creative and well-curated interiors. The wood effect comes from **pre-coated steel**, able to reproduce finishes and shades inspired by natural materials, for a **warm and contemporary** aesthetic impact.

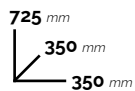

HUG

DESIGN WASTE BIN

45 L ▶

Colors available:

Pre-coated steel with wood effect

Pre-coated steel combines aesthetics and performance: the surface is treated and finished in a continuous process to achieve a realistic, uniform wood effect. A solution that ensures consistent quality, wear resistance and a warm, natural look, ideal for contemporary interior projects and representative spaces, with a refined appearance over time.

HYGIENE

DOSICO by Medial – The hygiene specialist

With the acquisition of Dosico, a Spanish company specialised in the design and manufacture of dispensers and professional hygiene solutions, Medial strengthens its positioning as an industrial manufacturing company, integrating a structured production of plastic solutions alongside its longstanding expertise in steel processing. Within Medial, Dosico takes on the role of specialist in professional hygiene, becoming the reference point for the development and production of dispensers and systems dedicated to shared and professional spaces. Dosico solutions are organised into three dispenser ranges, designed to meet different usage and aesthetic needs: STILEVO, STILÓ and STILOIR.

AIR FRESHENERS

Combining *innovation, sustainability and ease of use*, this new line of advanced solutions for air care and hygiene offers *practicality, long-lasting performance and a consistently pleasant experience for users*.

V-Air Solid provides up to 60 days of continuous freshness thanks to its battery-free, multi-phase refill.

V-Air Flow delivers consistent fragrance for 30 days, automatically adjusting intensity based on light and temperature.

For washrooms, **V-Screen Halo** ensures improved hygiene by reducing splash-back and neutralizing odours at the source.

Three complementary solutions to create cleaner, fresher and more welcoming environments every day.

V-AIR SOLID

PASSIVE FRAGRANCE DIFFUSER

Refills compartment

Rear adhesive

- Structure made of recyclable biobased EVA
- Organic gel derived from seaweed
- Free from batteries and propellants
- Up to 60 days of duration
- Can be placed on a surface or wall-mounted (rear adhesive)
- Low environmental impact (Carbon Assessed)
- Multi-phase refills available in various fragrances
- Plastic closure, key included

	WHITE	APPLE ORCHARD	BERGAMOT SANDALWOOD	CITRUS MANGO	ICE COOL	LINEN BREEZE

FURNISHING ACCESSORIES

WELKOM-IN

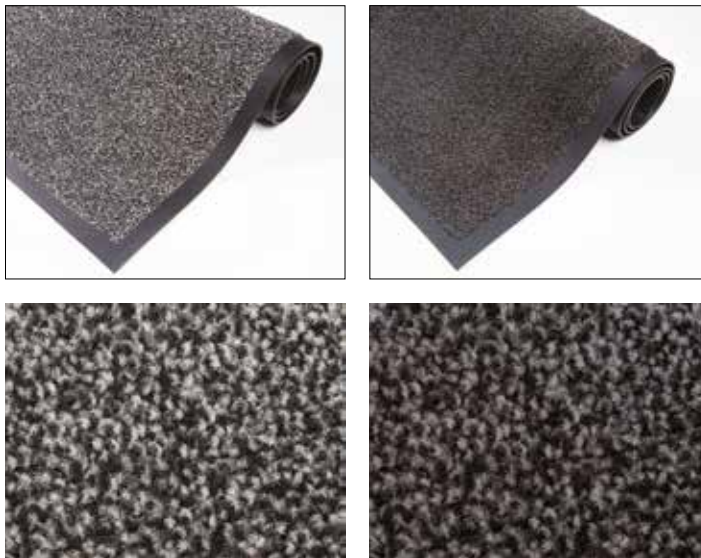

HIGH TRAFFIC WASHABLE ENTRANCE MATS

Washable mat designed for indoor entrances and **high traffic areas**, made with **high-resistance regenerated fibres**. Absorbs moisture and traps dirt, helping keep transit areas cleaner and safer. Ideal for receptions, offices, corridors and common spaces.

Dimensions and colours available:

- 60 x 85 cm
- 85 x 150 cm
- 115 x 180 cm
- 150 x 200 cm

CUSTOMIZATION OPTIONS

- High-strength regenerated polyamide yarn ECONYL®
- Twisted and heat-set anti-crush fibres
- **Static Control:** ~10¹¹ ohms (ISO 10965) – Personal charging <2 kV (ISO 6356)
- **Fire protection class Cfl-s1**
- High absorbency and excellent dirt removal
- 100% washable nitrile backing, durable and anti-slip
- Washable in industrial laundry
- Supplied in multiple sizes
- Customization options

WELKOM-EX

HIGH TRAFFIC OUTDOOR ENTRANCE MATS

PVC mat with intertwined loop structure, designed for outdoor use and ideal for areas exposed to rain, dirt, and heavy foot traffic. Its open pattern allows immediate water drainage and captures debris before it can be carried inside. An effective solution for commercial entrances, covered walkways, and high traffic outdoor passages.

Dimensions and colours available:

120 cm x 6 m

- Technical mat made of PVC, featuring intertwined vinyl loop coils with a draining structure.
- Non-absorbent material designed to trap dirt and ensure cleanliness and safety at entrances.
- Slip resistance: 0.685 (dry) – 0.580 (wet).
- Frost-resistant: down to -15°C – PASS.
- High tensile strength: 10 MPa.
- Compliant with REACH regulation – EC No 1907/2006.
